FATHERS ARE TALKING

FATHERS ARE TALKING
is an innovative initiative founded by
The Chester Housing Authority
to get men talking about
their fathers and their fatherhood.

Discussions take place monthly and
include men from all walks of life.

How has your father impacted your life?
What was your father's favorite saying?
What was his favorite food, music or sports team?
Was your father in your life? Why does it matter?

You don't have to be a father to join our group.
Give us a call or just show up.
